

# A New Community Library Is Coming to Kansas City!

**A community-focused library dedicated to natural living, plant medicine, gardening, homesteading, and simple, sustainable life is coming soon to Kansas City.**

**We are currently taking book donations as we build our collection and prepare to open our doors.**

**Gently loved books on plant medicine, gardening, food preservation, composting, simple living, and related topics are welcome.**

**Have books to donate?  
Your contribution helps turn this dream into a living, breathing library.**

**Check out our website at [www.GoodRootsLibrary.org](http://www.GoodRootsLibrary.org) for more information on the library and how to donate books.**
